## **DETAILED ACTION**

### ***Response to Amendment***

Applicant's Amendment filed 25 February 2008 has been fully considered and entered.

### ***Response to Arguments***

Applicant's Arguments, see pages 5-9, filed 25 February 2008, with respect to claims 1-10 have been fully considered and are persuasive. The rejection of claims 1-10 has been withdrawn.

### ***Reasons for Allowance***

Claims 1-14 are allowed. The following is an examiner's statement of reasons for allowance: Applicant's Arguments, regarding claims 1-10, on page seven (7) of Applicant's response to the previous Office Action. Specifically, with regard to Lam et al. failing to positively teach that the transmission line be longer than the optical waveguide.

Lam et al. teaches varying the length of the transmission line in an undulating path over the length of the waveguide (paragraph 32), in order to add inductance to the transmission line without adding to intrinsic capacitance. The reference further teaches that the length of the transmission line can be varied independently of the optical line (paragraph 14). However, there is no positive teaching or suggestion in the reference that the transmission line be longer than the optical waveguide. Further, the reference teaches a device with a total waveguide length that is five times that of conventional devices (paragraph 34).

Hence, there would have been no reason or motivation for one of ordinary skill in the art to have used the prior art to make the invention of claims 1 and 6. Claims 2-5 depend from 1,

and claims 7-10 depend from claim 6. Claims 11-13 were previously indicated allowable for the reasons set for the in the previous Office Action. Newly added claim 14 depends from claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
